Building Construction, However, Is Making But Little Progress in Chicago Area-Conditions Elsewhere.

BY A. D. WELTON.

Special Dispatch to The Star. CHICAGO, September 28 .- The increased demand for steel and steel roducts has been slow in reaching this section, but independent steel this section, but independent steel Public Is Proving Alert under a fair demand for specialties. The Illinois Steel Company, however has only two of eleven furnaces in operation. The Gary plants of the United States Steel Corporation are running at less than 50 per cent of capacity, while mills at Milwaukee are maintaining a similar rate of production.

Mail order houses report better Mail order houses report better earnings and a seasonal increase in sales. It is an axiom of the mail order business that when the farmers have no money they buy near home on credit and when they have money they buy for cash by mail. Textile manufacturers, particularly makers of gloves and hosiery, in this terriof gloves and hosiery, in this territory, are running nearly at capacity and are having difficulty securing skilled labor, as employes laid off in dull times have drifted elsewhere.

Building is making little progress. Many union men have declined to accept Judge Landis' wage award, although they agreed on him as arbitrator, and many contractors are continuing to pay the old scale of \$1.25 an hour, despite the agreement. Negotiations, it is feared, will run into cold weather, with old building delayed and new building deferred until spring.

Planters and Tradesmen Anxious Over Crop Report

NEW ORLEANS, September 28 .-Planters and business men in the cotton states are waiting for the government report on crop condiwhich will be issued early next tions, which will be issued early next week, with much anxiety. Some be-lieve that the report will show a shrinkage of 1,000,000 bales since the previous report, or a crop of 6,000,000 bales, compared to estimates of 7,000,000 in August, and 8,200,000 in

July.

It is felt such a shrinkage would be a decided blow to the south, even though the price of cotton has doubled in the last six weeks, as any increase in price would fail to compensate for the small amount grown by the individual planter.

It is pointed out that while many farmers benefited by the increase of old cotton from last year's crops, the greater portion of this benefit went to middlemen and speculators. It is feared the speculators will occupy a similar position this year, as they are already reported paying higher prices on the farms in many sections of the cotton belt than the staple is bringing in the leading markets.

A seven and a half million bale crop was viewed with satisfaction by all, but it is feared a 6,000,000 bale are working on a five-day-week are already reported a 6,000,000 bale are working on a five-day-week are leaded a cotton has been and solution and selected and table grapes.

Electrical Equipment.

SCHENECTADY, N. Y., September 28 (Special).—The wages and salaries of all employes of the General Electric Company will be reduced 10 per cont pany's storage tanks. Oil will be accepted only for transportation and delivery.

Gleves.

PATERSON. N. J., September 28 (Special).—Ribbed smoked sheets are in good demand in the rubber market for deliveries from January to June for

crop would more than destroy any advantage of increased prices.

However, hundreds of millions of frozen loans have been liquidated in the south and general business has been correspondingly promoted.

BY FRANK, D. McLAIN.

BY FRANK D. McLAIN.

Special Dispatch to The Star.

PHILADELPHIA, September 28.—
The larger retail stores in this section have been slow to advance prices on cotton goods, although the wholesale prices have advanced in many instances. So much censure was encountered by failure of merchants to reduce prices at retail when manufacturers made reductions that retailers now appear disposed to give the public the full benefit of low cost goods they have on hand. Exceptions are noted in some lines, however. The cotton socks which have been offered as low as 10 cents a pair in the windows of so-called army and navy stores, which sell surplus government goods bought at low prices, have disappeared as if by magic.

Shoe manufacturers who had accumulated surplus stocks now are cleaning out their warehouses and local department stores are offering excellent fall and winter shoes for men at attractive prices. These offerings are being moved quickly, as the public is proving itself alert to avail itself of real bargains.

Coal consumers continue to buy a ton at a time for domestic use instead of filling their bins for the winter, but there has been some slight increase in demand for industrial purposes.

Commodity Reports From Various Sections

Fruit. SAN FRANCISCO, September 28 (Special) .- Dealers expect the entire raisin crop of this year and the surplus from last season to move at the raisin association's price, as there is a strong demand in evidence. Fancy wine making varieties of grapes are selling as high as \$135 a ton, with ordinary stock from \$90 to \$100. Car shortage is checking shipments of wine and table grapes.

HOPEWELL, Va., September 28 (Special).—The Tubize Artificial Silk Company is rapidly increasing its output at its plants here, and is now manufacturing 5,000 pounds a day.

The capacity is 11,000 pounds a day. NEW YORK, September 28 (Special).—Representatives of southern dry goods houses now in the market here are preparing for a strong demand for silk dress goods this fall because of the increase in home dressmaking in their sections.

Steel. PITTSBURGH, September 28 (Special).—With the stronger market for sheets, sheet bars are quoted at \$30 to \$32, the higher price becoming more prevalent each day. Black sheet has advanced from \$2.75 to \$3, galvanized from \$2.25 to \$2.50. to Grab Real Bargains

WHEELING, W. Va., September 28 (Special).—Plants of the Wheeling Steel Company are now operating on a 50 per cent basis, an increase from

BOSTON, September 28 (Special).— The fact that big reserve stocks of wool are still unsold has prevented any important price advances in that staple, but the market here is distinctly firm.

Machinery. CHICAGO, September 28 (Special).— The various plants of the Interna-tional Harvester Company, it is esti-

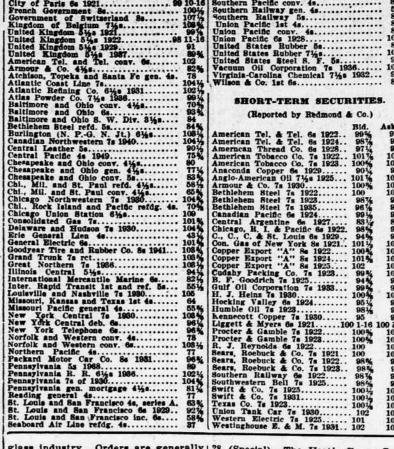

ST. PAUL, September 28 (Special).—Cattle and hogs are selling at lower prices on the average than at any time for years. Ninety per cent of the cattle disposed of here this week sold at prices ranging from \$2 to \$5 a hundred pounds, while hogs were well under \$7.

NEW YORK, September 28 (Special).—Bag manufacturers are in the market for the heavier cotton sheetings and are buying freely. Prices for ings and are buying freely. Prices for unfinished goods are firm and higher than for a long time. Four-yard thirty-seven-inch sheetings moved in the neighborhood of 10½ cents a yard. the neighborhood of 10½ cents a yard,
PHILADELPHIA. September 28
(Special).—Shirt manufacturers here have decided not to reduce the wages of their operatives. Many of the mills are sold up to January 1.

Automobiles.

ST. PAUL, September 28 (Special).—The demand for motor cars in this section has slowed up and dealers do not expect a marked revival until next spring. Buyers are awaiting the issue of the 1922 price lists.

arket was again highly professional. Here and there pressure was applied, forts to start a movement to higher levels, meeting with but poor success.

There is no question but what the public is indifferent to the market at this time, also that banking interests would probably rather see a steady, perhaps sustained, market, with small activity pending further developments in the industrial situation.

The bear element directed its attention to food stocks, oils, equipments and motors, meeting with success measurable by declines of ½ to 1½ points.

Mexican Petroleum followed its usual course, furnishing erratic fluctuations, rallying for 1½ advance, reacting and again making good its loss, all before the advent of the noon hour.

Harvester, Chandler, Studebaker and Crucible Steel lost 1 to 2 points. The steels were under intermittent pressure.

Pools selected some of the more obscure stocks in an effort to turn the tide to strength, Wells Fargo, Western Union, Burns Brothers, Corn

Business Notes.

PHILADELPHIA, September 28
(Special).—Former Vice President Marshall once said that what this country needed was a good 5-cent clar of gar. Philadelphia manufacturers have been striving to fill that need this year, and whether they have produced a "good" 5-cent cigar or not, they have produced millions which sold for a nickel. All Pennsylvania cigar factories are busy and the production of cigars has increased steadily since condition of to-STEUBENVILLE, Ohio, September From the first week in June, when the Serman government in its despendence of the serve a district estimated to conwho serve a district estimated to contain 60,000 shoppers, declare there has been a decided pick-up in general business. The increase in buying is especially noticeable in dry goods and hardware, but extends in lesser degree to all lines. The increase in buying is based on resumption of operations at industrial plants in this section.

Perate affort to raise gold for the reptarations, began its reckless use of the circulation privilege, this account at the reichsbank has risen from less than 72,000,000,000 to over 82,000,000,000.

It was a fair comment on the stock market that it was not as responsive as might have been expected to the favorable trade news which has been coming in for the last few days.

NEW YORK, September 28 (Special).—The number of jobless men who have registered at the municipal industrial aid bureau since its opening on September 19 indicates that unemployment here is not so serious as was feared. About 3,500 have registered so far, the largest number on industrial aid bureau since its opening on September 19 indicates that unemployment here is not so serious as was feared. About 3,500 have registered so far, the largest number on any one day being 800, on the day the bureau was opened.

SUBURBS WIN FARE FIGHT.

ATLANTA, September 28.—Existing contracts between the Georgia Railway and Power Company and the towns of Decatur and College Park, providing for 5-cent car fare between those places and Atlanta, have been held valid by the supreme court of Georgia. The litigation followed efforts of the power company to extend the 7-cent street car fare charged in Atlanta to the adjoining towns.

First of all was the demonstration that cotton prices had not over-rated the extent of the crop shortage, and that the rise of the first fortnight in September was going to hold. Second in importance was the advance in steel prices, accompanying considerably increased production in various lines. Third came the testimony of the August Traffic returns, that the majority of the roads did still better last month than the month before. Finally here was yesterday's advance in Pennsylvania crude oil, the first increase in three months, and the 5,000,000-pound copper purchase by the American Brass Company, both of which were accepted as indications that the situation in these two industries is on the mend.

CUBAN SUGAR CUTS PRICE. NAVY LABOR VOTES NEW YORK, September 28.—After maintaining a quotation of 3½ cents, cost and freight, for over a month, in the face of a steady decline in other sugars, the Cuban sugar finance committee has reduced its price to the basis of 2½ cents, or within less than ½ cent of the outside market. A more active inquiry developed at the decline, with the committee reporting sales of more than 200,000 bags.

That Wage Law of 1862 PARIS, September 28.—Prices were irregular on the bourse today. Three per cent rentes, 56 francs 20

Should Be Amended. Decision to carry the navy yard wage controversy to Congress was definitely reached today by delegates

Five per cent loan, 61 francs 45 centimes.

The dollar was quoted at 14 francs 2 centimes. ists, in session at the Machinists' buildists, in session at the Machinists' building. Methods of procedure to obtain congressional legislation to have the award of the general navy wage board reviewed with a view of having the former pay scale re-established were discussed at length.

Whether to ask Congress to pass a joint resolution ordering a rehearing of the wage case, or suggest amending the wage law of 1862, was the question under consideration. Sentiment among the delegates, it was said, is crystallizing in favor of the latter plan.

lution demanded that these men be reinstated.

The resolution was introduced by Philip Engel, representative of the Brooklyn navy yard employes, who pointed out that the two men had a high efficiency rating and that facts have been produced and submitted to the management of the Brooklyn yard showing that the members of the shop committee did not "deliberately intend to deceive the management."

Canal Zone Situation. The labor situation in the Panama Canal Zone was outlined by C. H. Hushing, representing the government employes in that territory. He said that the War Department now has a commission investigating conditions in the Canal Zone with a view to effecting expensives.

economies.

Mr. Hushing pointed out that the result of the commission's investigation may mean that it will recommend lower wages and unsatisfactory workong conditions for employes in the Canal Zone. He appealed to the delegates to oppose any conditions which would make working conditions there less favorable.

The delegates attacked the reduction

Canal Zone. He appealed to the delegates to oppose any conditions which gates to oppose any conditions which would make working conditions there less favorable.

The delegates attacked the reduction in navy yard wages as a bad policy not only for the worker, but also for the employer. Many employers, it was contended, are only waiting for wages to "hit the bottom" before they resume industrial operations. If the government's action indicated an opinion that the low level has been reached, it was declared a resumption of industry would follow. Action of industrial industrial situation.

LOCAL WHOLESALE MARKET

Hay—Receipts of new hay today were 46 tons.

The demand for hay is fair at a range of \$16 to \$21 per ton for fair to good quality of new mixed hay and timothy. Receipts moderate, but ample.

CHICAGO, September 28.—New setbacks in the price of wheat took place today, chiefly as a result of apparent lack of confidence on the buying side. Acute weakness of German marks was an unsettling factor, and so, too, was uneasiness regarding the British industrial situation. Furthermore, bears continued to stress accumulating domestic stocks. Opening quotations, which varied from % cents decline to % cent advance, with December, 1.23% and hay, 1.27 to 1.27%, were followed by material downturns all round.

New low price records for the season were touched by September and stimulation and so to \$10 per points of \$10 per pound.

To to \$27 points, with October selling up to 21.45 and December to 21.33, making new high ground for the movement. The advance, however, met heavy realizing and early fluctuations were very irregular, with December 21.35; January, 21.00; March. 20.65; May, 20.20.

Another southwestern crop report placed the condition at 43.3 and the indicated yield at 6.735.000 bales. Around 21.00 for December there was more trade buying and the bullish weekly report of the weather bureau promoted rallies of 15 or 20 points during the afternoon. In addition to stopping notices here on October contracts, which they are rumored to have bought sometime ago at prices averaging about 13 cents per pound, private advices from the south said the Japanese interests had been buyers of spot cotton both in Texas and the Alantics late vesterday. changed to % cents lower, including becomber, at 51% a51% to 51%, the market underwent a general sag.

Oats weakened with other cereals, starting unchanged to % higher, December 37%, and then scoring losses for all months.

Higher prices on here are the starting to previous the starting to previous the starting to th
